DIY => Do-it-Yourself.
Not necessarily by-yourself.

U.S. K-12-16-20 Schooling can-be and should be replaced by Internet Hosted Clarification Services + Tutoring Services + Coaching Services + Mentoring Services + ***Collaborative Cluster*** Options and Opportunities that can be provided by ***A.I.+++.***

Why Do-it-Yourself when we have Taxpayer-provided School Systems to tell us: ***What we need to Know. Why we need to know it. What we need to be able to do and Why.*** And => How-to => Do it: ***Competently*** and ***Competitively.***

Because, U.S. School Systems don't know the-***Answers-to*** or ***How-to*** do any of the above, as they teach and test their World of Children Schooling — not the Real Time, Real World their Students live-in-Today or may live-in-Tomorrow.

U.S. K-12-16-20 Schooling can-be and should be replaced by Internet Hosted Clarification Services + Tutoring Services + Coaching Services + Mentoring Services + ***Collaborative Cluster*** Options and Opportunities that can be provided by **A.I.+++.**

However, DIY does have some limitations. There are multiple Paths to what needs to be done and we Humans have multiple Skill Sets + Capabilities + Competencies. We do not know and cannot tell => which Path will best suit you. Only You Know that.

And, only you can figure that out with a little help from those with the Right Stuff here on Retrac.com.

Only YOU can figure out *(with a little help from those with the Right Stuff here on Retrac.com)* ***which path will best suit YOU.***

Plus — Research/Consulting/Artificial Intelligence Research: ***Artificial Intelligence*** is information we get from someone/somewhere else, not from our own personal experience. As communication technology improves, so do our sources of information (aka: **A.I.+++**). Not to be confused with ***AI Computer Automated Intelligence.***

Primary Sources:
1) Google. 2) The Internet. 3) Retrac.com. 4) Broadcast News. 5) Schools. 6) Social Media. 7) Discussions. 8) Meetings. 9) Collaborations. 10) People with similar Interests. 11) People with similar Needs. 12) People with similar aspirations.

The advantages of DIY to adult Students of all ages

There are two basic Types of People:

1) Subscribers who Conform and Comply to Group Think and rely on their ***Cognitive Intelligence*** and the **3Rs** (Rote + Regurgitate + Replicate + surmise) and to whom **DIY** is a threat.

2) Mavericks who tend to Think for themselves and rely on their ***Ambient Intelligence*** to avoid extinction and lifestyle.

Since we are all unique individuals, we have to figure that out for ourselves — *Invent or Hide or DIY.*

Only you know-how you can best fit-in to an existing Operation, Culture, Social Setting.

- You decide what you want to-be able-to-do and Why.
- You decide your own Goals and Objectives and level of Competency.
- You get to decide how you want-to Get-there.
- You set your own Performance Standards.
- You decide which are the correct answers for you.
- You decide the significance + relationship of your answers.

A One-Room Schoolhouse

Building 21st Century Top-Tier Employment Perspectives and Intellectual Capabilities/Competencies that earn Degrees of Strategic Adaptability.
