

Profiles in Uselessness

U.S. Universities/Colleges and their Protégés (School Districts), have truly become where the Uninitiated teach the Uninformed how-to become Unproductive.

Over 32% of the U.S. Workforce have University/College Degrees. That's 3 times the average among industrialized Nations + our Community Schools have become like Detention Centers: armed guards and student ADA Absenteeism Rates that are 20+ times what they were when I went to school.

The result is —

- The most expensive University/College System in the world doesn't graduate Staffing to support a U.S. Globally Competitive/Adaptive Industrial Workforce that can meet the competitive challenges of the 4th Industrial Evolution.
- And, has generated the lowest Voter-participation rate among industrialized nations — 32% of U.S. eligible Voters elected Donald Trump POTUS.

The List of Primary *Freedom from Fact or Relevancy* — Academic Termite Mounds — in the USA today

is headed by the most overrated Public University in the USA today — U.C. San Diego — with its superior Strategic Plan (Circa 1984) that fails to accommodate CERN's HTML, its Truths or their Consequences, followed by #2) Harvard University, followed by the *U.S. News and World Report's* Top Universities List. The only acceptable exception to the U.S. University Termite Mound list may be Stanford University. *As Silicon Valley so testifies.*

Many influential Termite-oriented, U.S. taxpayer-supported Universities that are actually advocating ***Sedition***, in violation of the U.S. Constitution, are sponsored /controlled by Religious Organizations — the ultimate habitat of Cognitive Intelligence Institutions (aka: Human Termite Mounds).

Academic Termite Mounds

Many influential Termite-oriented U.S. taxpayer-supported Universities advocating Sedition, in violation of the U.S. Constitution, are sponsored/controlled by Religious Organizations.

The written dissertations, Bibles, Canons, Gospels, et al, that define Religions are written for the sole and exclusive purpose of allowing the author/authors to live off reader/subscribers via-Tithing, and/or Control their neighbors/communities via self-serving Fiction/History/Superstition via Soul-based Shell Games. The largest building in any town in Europe, or in the USA, is usually a church or churches. In the USA today, churches are dwarfed by University/College Campuses.

> **Notre Dame:** A Catholic Canons Termite Mound that recruits via Baptism and practices Intellectual Castration via-Confirmation and is currently advocating Political Sedition in the USA.

The Catholic Church is the Church of Choice among all Fascist Nations, particularly Hispanic, and is *persona non grata* among People-oriented Socialist governments. The U.S. Constitution describes American Socialist Governance; Henry Ford was the Father of American Private Sector Socialism; followed by the American Corporation, Public Schooling and the Right to Vote.

The Catholic Church jailed Copernicus and Galileo, opposed the Magna Carta, supported the Spanish Inquisition, ignored the Holocaust, claims Psychosomatic Medicine at *Lourdes-creates-Miracles*, while providing a safe-Haven for homosexuals, pedophiles and women who hate children, especially boys. It is a Matter of Public Record. Catholics simply don't know any better.

"I must confess, I am a Jesuit-trained Agnostic following 13 generations of Quakers. Quaker is more the advocacy of a Lifestyle than a Religion. There are no Ministers. or Combat Pilots; many military Medics." — John M. Comer, DD

> **Southern Methodist – Christian:** King James Bible-based Termite Mound that practices Intellectual Castration via-Confirmation and subscribes to the State Religion of a foreign Country — The Church of England, its KJB Bible and its Pontiff the King of England — while advocating Political Sedition in the USA. KJB Christians were ethnically-cleansed from the American Colonies after the Revolutionary War.

Thomas Jefferson called them, *"The dumbest white people in America"*.

> **University of Florida:** Some American Universities sponsor uniquely friendly habitats for smaller Religions. UF has the largest concentration of Jewish students in USA — creating a Jewish Torah/Tanah-based Termite Mound. Judaism's BarMitzvah is unique in that it not only Intellectually Castrates Jews, but it also culturally emasculates Jewish Males by putting Jewish Women in charge of the perpetuation of Jews as a separate, distinct and independent People.

Remember, Masada was not Thermopylae, and may not even have happened — but enhances the *"We are a persecuted"* people-generated self-image. Prompting Henny Youngman's succinct critique of Judaism, *"Take my Wife — Please!"*

Three small tribes from the foothills of Canaan, claiming to be The House of David, have successfully declared themselves a-People while building/sustaining a Matriarchal Society.

> **Recent competitive crippling Trends:** The proliferation of born-in-India Senior Executives in Corporate/Academic America — A Country that has never won a War of Independence or any other kind.

India spent 200 years (1757–1947) as a Territory/Colony/Slave State to a Country that was 1/20 its size + 2,000 miles away + only gained its independence with the support of the USA, and had to be split into two parts because of religious animosities that prevented creating a Civil Society. Similar to Jews and the Palestinians in Great Britain's Colony Palestine.

India has 5 major Caste groups: The Brahmins, Kshatriyas, Vaishyas, Sudras and the Dalits (called the *Untouchables*), plus about 20 lesser Castes. Each Caste *Preys-on* the Castes below them, while-*Praying* for protection from the Castes above them. India's existing Cultural Perspectives and Practices makes Termites look like Butterflies. They Rote, Regurgitate, Replicate and Spell well. They make great Engineers. However, Engineers are implementers, not initiators. None of the above are useful in a Tech-driven *Industrial Evolution*.

The List of Primary Freedom from Fact or Relevancy —

Academic Termite Mounds in the USA today — is headed by the most overrated Public University in the USA today — U.C. San Diego with its superior Strategic Plan (Circa 1984) that fails to accommodate CERN's HTML, its Truths or their Consequences, followed by #2) Harvard University, followed by the U.S. News and World Report's "Top Universities List". The only exception to the U.S. University Termite Mound list may be Stanford University. As *Silicon Valley* so testifies.

No one born and raised in India has had an Original-thought since they were toilet trained. India will never-be a Global Industrial/Economic/Political Power. Why doesn't anyone in U.S. Industry or U.S. Academia seem to know any of the above?

The USA defeated Great Britain and gained our independence when the USA was 1/4 the size of Great Britain — when Great Britain was considered the most powerful Empire in the World. *The Sun never set on the English Empire* until the Battle of Yorktown, USA => October 19, 1781.

The U.S. Private Sector Management Consulting Mounds

— that are too numerous to mention, have destroyed America's Industrial/Commercial competitive capabilities as the U.S. Trade Deficit / National Debt / Consumer Debt / Workforce Profile, so testify.

> **McKinsey & Company:** McKinsey has offices in 130+ cities in 65+ countries and hires its largest number of Associates from Wharton. Donald Trump's claimed Alma Mater.

Management Efficiency and Industrial Evolution in a Science + Tech-based World are contradictory bedfellows. From this day forward, U.S. Companies driven by Biz-School-built Fiefdoms + Adversarial Management, and budgeting less than 5% for adaptive R&D, will probably not be around in 10 years.

> **U.S. Private Sector** operates for the sole and exclusive benefit of its Hierarchy, at the expense of its Dependents. In Corporate America, Dependents are called *Employees*. In Academia, they are called *Students*. In Religions they are called *congregants*.

U.S. Cognitive-driven Termite Mounds and Cultures, and U.S self-centered Political Parties are totally responsible for the Rancor + Civilian-PTSD + Drug use desecrating American Society. There is an affordable cure.
