How-to measure our Intellect's "Intellectual Acuity" that can/may/might/will affect our situation > circumstance > relationships > options > opportunities

Measured in terms of our capacity to comprehend the Truth and its Consequences of our-or-others' multiple actions/activities in terms of a progressive number of Related Issues, we call "Dots".

XX Chromosome-built DNA

Inherent Species Roles: Gatherers/Child-bearers

RANGE OF OUR CULTURALLY-BUILT "INTELLECTUAL ACUITY"

Based-on Biology + Physiology + How our 4 Brains Balance (Validated by a Nobel Prize in Medicine and Physiology: Roger Sperry, CalTech, 1981)

XY Chromosome-built DNA

Inherent Species Roles: Hunters/Warriors

Steve Jobs – "Memorizing has very little to do with Intelligence. Smart People

Ys-Quantum-A.I.

Cog-IQ = Cognitive Intelligence

Binary-Lineal Thinking => Processes

Reptilian Brain: Fight, Flight, Emote, Procreate

Cognitive Intelligence = Rote and Regurgitate

Literal-Verbal communication capabilities Behavior Drivers: Feelings = Emotions

Primary Motivation: Inherent Self-Interest

Verbatim/Memorizing/Replication

Primary Common Denominators:

DISTRIBUTION EMPLOYMENT <= Stabilizers

Learning How-to Connect those Dots that dictate our Options and Opportunities requires **Empirical Schooling** that graduates Contenders/Collaborators — Who can-do + i4A > 2-4C.

Am-IQ = Ambient Intelligence

Human Intellectual Acuity + Contextual Intuition > > > With>Prepping> >

U.S.

OF —

How-to Connect an increasing number of "Dots" in our frame-of-reference requires A.I.++ (Artificial Intelligence) that can expand our

> Servants > Disciples > Incrementalists > Initiators > Innovators > Inventors

intellectual horizons to benefit from the emerging Technology's Syntopicon access to all Knowledge. ("Artificial" means that the intelligence [aka: special Knowledge], does not come from experience or primary sources.)

NEOCORTEX BRAIN:

Gender-Neutral Memory Banks

Conceptual>Contextual Thinking => Anticipates Modern Human Brain = Cerebral Cortex = Controller Ambient Intelligence = Adapt, Innovate and Invent Graphic/Sound/Sensory Communication Capabilities

Behavior Drivers: Pragmatic Objectives Primary Motivation: Collaboration Primary Common Denominator:

> **Concepts-in-Context** = Collaborative Ensembles

Learning How-to attain/retain a position as a unique individual — while we Merge our aspirations, capabilities, competences with our Culture + Political Environment + Geographical Environs + Science + Technology to experience our own version of a Satisfying-Lifestyle that does not infringe on our neighbors — requires that we know/understand how the Human Race is run in America, while acquiring the

Intellectual Acuity to-run in it and finish in the Top-3 on our-own-terms.

SILICON VALLEY,
