

When Trump's Tariffs reverberate across the U.S. Consumer Marketplace during the next 90–360 days, Private/Public Employers are going to unleash an **A.I.-driven RIF attack** on their workforces to drive down Costs.
(RIF = Reduction in Force.)

No one wants to be, and we assume you don't want to be, on the **RIF-list** of an employer's **expendables**.

You can use Retrac.com's **A.I. DIY>Ys-ly Prepping Services** as a reference to Protect your Jobs + your Family + your Future — and it won't cost anything. Is it worth considering? You can get **strategic planning-help** if you need it. What do you Think?

During the U.S. Age of Automation and Beyond, you can devise a **Strategy** to deal with + manage the obvious — and the not-so-obvious.

Digression #6: How-to Circle Your Wagons

**Yes you-can — Protect your Job + your Family
+ your Future — tomorrow and beyond.**

What follows is an exercise that can validate the veracity of an adage of the American West:

"You can lead a horse to water but you can't make him drink."

For Humans, "Drinking" involves rising to the occasion! Will they Protect => Their Job + Their Family + Their Future?

How-to => Retrac.com's Visitors/Reviewers/Participants need to inform their Managers and their Manager's Managers that they are **A.I. Prepped** + then build a **Collaborative Cluster** of potential **A.I. RIF Survivors** in their local employment Community.

- **Select fellow employees** that you know, or might like to know better, and some neighbors by introducing them to **Retrac.com** and the potential of a local **A.I. Prep Collaborative Cluster**.
- **Make two eMail address lists:**
(1) **Job Protection:** Write and send an eMail to your supervisors + Managers + HR. Then (2) **Employment Protection:** Circle your Wagons – Ys-ly and form a **Community Collaborative Cluster**.
