Requested Zoom-In RoundTable **Discussions**

Since delineating useful **Principles** requires a-consensus, Round Table Discussions are collaborative to incorporate Perspectives other than our own. A RoundTable requires 3–12 participants. You can solicit your friends/acquaintances/classmates — and/or we will solicit our mailing list.

There are **Five Types** of Discussion Topics

1) **Context:** Where the Whole is greater than the sum of its Parts.
2) **Concepts:** Relationships are more important than Details.
3) **Physical Systems:** That influence response.
4) **Societal Systems:** That influence Perspectives that result from Experience.
5) **Emotions:** That result from Feelings (PTSD: Military vs. Civilian vs. Student)

Topic Examples

- What is Artificial Intelligence — Really?
- Intellectual Acuity
- Cognitive Intelligence
- Game Theory
- Smart Guessing
- Making Connections
- Adaptability
- Our 4 Human Brains
- Strategic Planning
- Collaboration
- Knowledge *vs.* Data *vs.* Information

- Chromosomes – DNA – Physique + Physiology + Intellect + Specie's responsibilities = Human Beings
- Pick your own topic. This is your Life.
- Self-Test > Do you have *"Ambient Intelligence"*: Take one of your Beliefs. State the Belief in writing. List 3 Scientific or Statistical or Historical Facts that support your defined Belief, plus — How this Belief benefits-you.
