

DIY => Do-it-Yourself. Not necessarily by-yourself.

U.S. K-12-16-20 Schooling can-be and should be replaced by Internet Hosted Clarification Services + Tutoring Services + Coaching Services + Mentoring Services + **Collaborative Cluster** Options and Opportunities that can be provided by **A.I.+++**.

Why Do-it-Yourself when we have Taxpayer-provided School Systems to tell us: *What we need to Know. Why we need to know it. What we need to be able to do and Why.* And => How-to => Do it: **Competently and Competitively.**

Because, U.S. School Systems don't know the-**Answers-to** or **How-to** do any of the above, as they teach and test their World of Children Schooling — not the Real Time, Real World their Students live-in-Today or may live-in-Tomorrow.

U.S. K-12-16-20 Schooling can-be and should be replaced by Internet Hosted Clarification Services + Tutoring Services + Coaching Services + Mentoring Services + **Collaborative Cluster** Options and Opportunities that can be provided by **A.I.+++**.

However, DIY does have some limitations. There are multiple Paths to what needs to be done and we Humans have multiple Skill Sets + Capabilities + Competencies. We do not know and cannot tell => which Path will best suit you. Only You Know that.

And, only you can figure that out with a little help from those with the Right Stuff here on Retrac.com.

Only YOU can figure out (with a little help from those with the Right Stuff here on Retrac.com) which path will best suit YOU.

Plus — Research/Consulting/Artificial Intelligence Research: **Artificial Intelligence** is information we get from someone/somewhere else, not from our own personal experience. As communication technology improves, so do our sources of information (aka: **A.I.+++**). Not to be confused with **AI Computer Automated Intelligence**.

Primary Sources:

- 1) Google.
- 2) The Internet.
- 3) Retrac.com.
- 4) Broadcast News.
- 5) Schools.
- 6) Social Media.
- 7) Discussions.
- 8) Meetings.
- 9) Collaborations.
- 10) People with similar Interests.
- 11) People with similar Needs.
- 12) People with similar aspirations.

The advantages of DIY to adult Students of all ages

There are two basic Types of People:

- 1) **Subscribers** who Conform and Comply to Group Think and rely on their **Cognitive Intelligence** and the **3Rs** (Rote + Regurgitate + Replicate + surmise) and to whom **DIY** is a threat.
- 2) **Mavericks** who tend to Think for themselves and rely on their **Ambient Intelligence** to avoid extinction and lifestyle.

Since we are all unique individuals, we have to figure that out for ourselves — *Invent or Hide or DIY*. Only you know-how you can best fit-in to an existing Operation, Culture, Social Setting.

- You decide what you want to-be able-to-do and Why.
- You decide your own Goals and Objectives and level of Competency.
- You get to decide how you want-to Get-there.
- You set your own Performance Standards.
- You decide which are the correct answers for you.
- You decide the significance + relationship of your answers.

A One-Room Schoolhouse

Building 21st Century Top-Tier Employment Perspectives and Intellectual Capabilities/Competencies that earn Degrees of Strategic Adaptability.
