

Student Loan Debt

— Absolved Here!

U.S. Constitution 7th Amendment: "In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of Common Law that reflect the supreme **Law of the Land.**" (Jury has power of Nullification)

Over 5,000,000 Americans have defaulted on their Student Loans

because the work experience they were promised by their University/College in exchange for the Time and Money spent earning a Degree did not materialize (40% are single Moms). Another 15 million are under-employed and on the brink (30% are single Moms).

That's 20 million Americans who can legally and affordably (about \$500) sue their University/College in Federal Court for **Breach of Contract** and **WIN**.

They may also be able to sue the U.S. Department of Education for endorsing the inept, incompetent, woeful mismatch between the Curriculum of U.S. Universities and the Literacy Levels and Adaptable Skills Sets employees need in the evolving **Age of Automation** U.S. Workforce that is facing Global Competition and currently losing.

No one bothered to match — What students were memorizing in School to — What graduates would need to know and be able to do — Real Time in the Real World, **Age of Automation**, U.S. Workforce. They still don't. Hopefully litigation is not the only effective solution to America's economic survival in the 21st Century.

Absolving Student Loan Debt

Public Employees take an Oath to protect and defend the U.S. Constitution. Their Oath is a condition of employment. Violating their OATH breaches their Contract of Employment and nullifies their **Sovereign Immunity**.

U.S. Universities and the U.S. Department of Education were **warned** => **SOP is DOA** in our 21st Century, computer-based, 4th Industrial Evolution's Age of Automation —

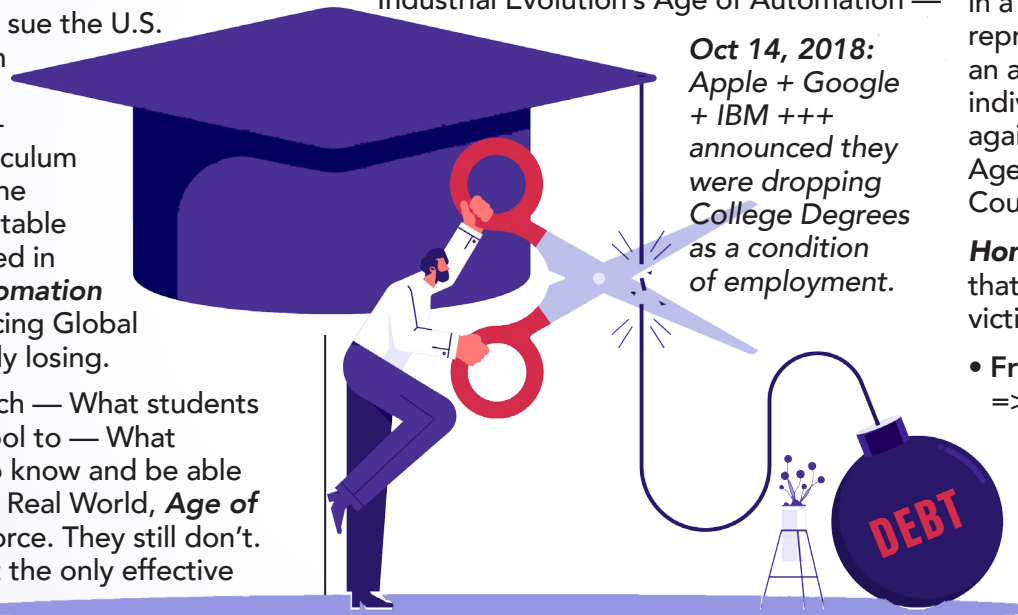

Oct 14, 2018:
Apple + Google + IBM +++ announced they were dropping College Degrees as a condition of employment.

*Publicizing what they had been doing for some time. Silicon Valley was built by College dropouts using their **Ambient Intelligence** not their school-based Cognitive Intelligence.*

The 7th Amendment of the U.S. Constitution provides individual Americans protection against **Breaches of Contract**, which cost a Plaintiff more than \$20, in a Court where Plaintiffs can actually represent themselves and actually have an advantage when properly Prepped. An individual's **Breach of Contract Lawsuit** against a U.S. University or a Government Agency can be augmented in Federal Court by charging =>

Honest Services Fraud (18 U.S.C. § 1346) that criminalizes schemes to deprive victims of their right to honest services.

- **Fraud** involves breaching a fiduciary duty => a duty to act for the benefit of another
- **Fiduciary Breach:** An individual in a position of trust (e.g., a government official, corporate executive) owes a-Duty of **Honest service**.
