Knowledge Glossary

A.I. = Artificial Intelligence = 1) The ability to acquire and apply knowledge and skill (*Commercial Value*) —or— 2) The collection of information of military or political value (*Spyware*)

Artificial is created or copied or produced by Human beings => typically covered by Patents. 98%+ of all Industrial Patents have been registered by Men, as have Scientific-discoveries and new Lands.

Cognitive Intelligence is the ability to acquire knowledge and skills to Conform and Comply and Infer = XX + XYx Chromosome-built DNA = Procreators + Socializers + Stabilizers = Females and intellectually castrated Males. Cognitive Intelligence: What has been = Subscribe and Sustain.

Ambient Intelligence is the inherent ability to-imagine, to-anticipate, to-be-intuitive = XY Chromosome-built DNA = Seeders + Providers + Producers. 18% of XY = XYy Protectors/Innovators/Inventors — Alpha Males/Thinkers. 6% of XX = XXy — What is. What can be = Adapt and Evolve.

Intellectual Capacity/Competence = Computer-based Intellectual Systems that are-Binary with a 5-Channel single Brain (aka: Software). **Human Intellectual Systems** have 21 Channels and 6 Brains; are-Analog + have Memory Banks that are tempered on the Anvil of Experience (can catalog A.I.)

Science says: Human Beings (aka: Homo Sapiens Sapiens in Extant – extended) have 2 normal natural physical Genders that are responsible for the-survival of our Species. And their Performance Roles have been delineated by “millenniums” of selective breeding. Governed by: *Survival of the Fittest*.

The Portal to A.I. is Google with its *quasi-Syntopicon Directory* that is going to create such a plethora of universally accessible Knowledge that a new-way of storing applicable knowledge to facilitate Recall-on-Demand will be required to manage the 4th Industrial Evolution and its Age of Automation's Interlocutors, Interpreters, Elucidators, Employers, Executives, Managers, Supervisors, Employees and their Prepping Processes => **Conceptually in Context**. Fortunately only 24% of the U.S. Workforce will be directly affected. **Are you Ambient Intelligence ready?**
